FULLSTACK DEVELOPER
DIEGO CARRILLO

I am a passionate student and developer, I like to study about new technologies, and use my free time to practice what I have learned, I consider myself an active, hardworking person.

WORK EXPERIENCE

Frontend developer

Plan 21(Volunteer) , September 2021 - Present

- I worked as a volunteer at this Argentinian foundation, with Angular 10. We have weekly SCRUM meetings where we review our work.

Frontend developer

Canam Technologic (Intern) , two months

- I worked with a big team with designers and other developers to create an informative app with ReactJS

Fullstack developer

Nativo (Intern) , December 2021 - February 2022

- I worked as a fullstack developer with AngularJS and Mongo with Ruby on Rails, had daily meetings in a real project which is currently in production.

MORE RELEVANT EXPERIENCE

Level Up – 2022

- Second place in TEC Level Up competition, where we needed to work with a company for two months and help with a real project

IBM Call for Code – 2021

- LATAM Regional Finalist at IBM Call For Code 2021, where we worked with a company to develop a product that is helping a lot of Latin American farmers

Huawei Seeds of the future – 2021

- Student and Graduate from Huawei SOTF program where we learned a lot about 5G and IT.
